TED SCHWINDEN, GOVERNOR

P.O. BOX 1728

STATE OF MONTANA

(406) 444-4500

HELENA, MONTANA 59624

This report, published each calendar quarter, is a compilation of employment and wage data. The information is compiled from reports submitted to the Montana Department of Labor and Industry by employers subject to the Montana unemployment insurance law. Also included in the report is similar data for federal government employees in Montana.

Employment and wages are totaled according to county, private ownership, government and industry.

A special thank you to:

Ginny Helfert, Program Supervisor.

Debbie Olson, Statistician, who analyzed the data and wrote the text.

Paula Welsh, Statistical Technician, who compiled the graphs, entered data into the computer, and distributed the publication.

Nancy Harte, Assistant to the Commissioner, who edited the publication.

If you have any questions, please contact Ginny Helfert at (406) 444-2430.

GLOSSARY

COVERED EMPLOYMENT
The employment reported by employers whose total annual payroll exceeds $1,000 in a calendar year.

Also includes employment reported by:
- -Agricultural employers if they paid $20,000 or more in a quarter, or if they employ 10 or more workers on 20 days in 20 different weeks in a calendar year.
- -Domestic service employers if they paid $1,000 or more in any quarter.
- -Self-employed persons on a voluntary basis.

Excludes:
- -Individuals in employment of son, daughter or spouse.
- -Children under 21 employed by parent.
- -Railroad employees.
- -Real estate or insurance salespeople paid solely by commission.
- -Student workers, inmate workers or patient workers.
- -Elected officials.
- -Church employees.
- -Children under 18 delivering and distributing newspapers or shopping news from house to house and business establishments.

SIC CODE (Standard Industrial Classification Code)
The objective in industry classification is to have each place of business classified on the basis of its principle activity. If a firm conducts different activities at its various establishments, separate industry codes are assigned to the extent possible to each activity. Industry codes are assigned to each reportable establishment based on 'nature-of-business' information employers submit, in accordance with the Standard Industrial Classification Manual, 1972 edition.

ESTABLISHMENT
An establishment is defined as a single physical location at which one, or predominantly one, type of economic activity is carried on. Employers who operate at two or more locations are requested to identify separately the employment and payrolls of each location.

EMPLOYMENT

Employment for a given month is the number of workers covered under the Montana unemployment insurance laws who earned wages from a reporting unit during the pay period which includes the 12th day of the month.

GROSS WAGES

Gross wages, as reported on the quarterly contribution report of employers covered by the unemployment insurance law, are the total amount of compensation paid by the employer during the quarter.

DISCLOSURE RESTRICTIONS

Publication of employment and wage data is withheld for any industry level which consists of fewer than three reporting units or in which a single establishment accounts for 80 percent or more of the industry's employment.

SECOND QUARTER, 1987, IN REVIEW

One third of the employers covered by unemployment insurance are surveyed each year to determine that they are properly classified by:

1. Standard Industrial Classification (SIC), a code that signifies the type of product or service produced by the business;
2. county, with each business assigned a three-digit code according to the county it is located in;
3. ownership, a business can fall into one of four ownership categories - federal government, state government, local government or private. If the business is a government agency, it falls into one of the government classifications. Otherwise, if the business is owned by a private citizen or citizens, it is classified under private ownership.

This year, the industry groups surveyed were Agriculture, Mining, Construction and Manufacturing. Some of these industries experienced major changes because one or more of the three codes was changed. Changes to SIC, county or ownership codes are made if the employer indicated the business has changed or if the original code was in error.

Virtually all industry groups are affected in some way since businesses may be moved into or out of the industry group when changes are made to the classifications of a particular business. The impact of the change is determined by the change in employment and wages in each industry group (SIC), county or ownership.

Changes are made to first quarter data only, but the impact of those changes may be evident throughout the year, especially when data is compared to previous years.

AGRICULTURE, FORESTRY & FISHERIES (SIC 01-09)

Employment Change from year ago:	-0.3%
Employment Change from previous quarter:	+44.2%

This group has displayed a typical seasonal rebound of employment for this quarter. The largest increase since last quarter occurred in Forestry (SIC 08), specifically Forestry Services (SIC 0851) and Timber Tracts (SIC 0811). Much of this increase was seasonal and employment will level off before dropping after reforestation finishes in the next quarter.

MINING (SIC 10-14)

Employment Change from year ago:	+0.4%
Employment Change from previous quarter:	+12.0%

Metal mining continues to show promising signs of recovery. Employment in Mining and Quarrying of Nonmetallic Minerals (SIC 14) has now surpassed last year's figures and shows continued improvement. Some of the increase in Sand and Gravel (SIC 1442) is seasonal and firms in other industries such as Phosphate Rock (SIC 1475) have rehired employees as business conditions improve.

CONSTRUCTION (SIC 15-17)

Employment Change from year ago:	-18.6%
Employment Change from previous quarter:	+34.1%

Construction has dropped 281 firms since last year. The majority of these firms were transferred to other industry classifications during the SIC survey. Since last quarter, construction industries in general have increased employment as weather conditions improve for the outdoor activities.

MANUFACTURING (SIC 20-39)

Employment Change from year ago:	-1.3%
Employment Change from previous quarter:	+2.9%

This quarter, employment in manufacturing is trailing closely behind last year's figures. The typical seasonal increase brought the employment up an average of 570 people. This is due in part to the opening of two new firms - a cement manufacturing company and a glass products manufacturing company. An overall employment increase was spread among other industries as demand for products increased. Ready-mixed Concrete manufacturers (SIC 3273) had the majority of the seasonal employment increase over last quarter.

TRANSPORTATION, COMMUNICATIONS, ELECTRIC, GAS AND SANITARY SERVICES (SIC 40-49)

Employment Change from last year:	-3.1%
Employment Change from previous quarter:	-0.1%

The employment drop of 520 since last year was due to a drop in several industries. Those with a sizable difference include:

Local Transportation (SIC 41) - 60 employees
Trucking (SIC 421) - 140 employees
Communication (SIC 48) - 320 employees

The trucking industry lost almost 40 firms over the last year, half due to transferring the accounts to different industries during the SIC survey.

As mentioned in the first quarter, 1987, report, the drop in

the Communications industry was caused by a large utility company improving the method of reporting their employment data. No actual jobs were lost.

Air transportation increased 24.2% over last year with three additional units.

WHOLESALE (SIC 50-51)

Employment Change from year ago:	-2.2%
Employment Change from previous quarter:	+3.7%

The increase in employment from March to April was almost evenly distributed between three industries. They include: Wholesale Farm and Garden Machinery and Equipment (SIC 5083) Petroleum and Petroleum Products Wholesalers (SIC 5172) Miscellaneous Nondurable Goods (SIC 5199), which includes wholesale sellers of flowers, gifts, novelties, and ice.

Since April the industry group has remained fairly stable.

RETAIL (SIC 52-59)

Employment Change from year ago:	+1.5%
Employment Change from previous quarter:	+5.7%

Seasonal increases in the Eating and Drinking firms (SIC 581) accounted for most of the increase since last quarter. Miscellaneous retail, which includes gift shops, sporting goods stores and fireworks stands also exhibited the normal seasonal increase as the summer months approached.

FINANCE, INSURANCE, AND REAL ESTATE (SIC 60-67)

Employment Change from year ago:	+1.0%
Employment Change from previous quarter:	+1.9%

This industry continues its gentle upswing through 1987 and remains slightly higher than last year.

SERVICES (SIC 70-89)

Employment Change from year ago:	+3.8%
Employment Change from previous quarter:	+3.4%

Hotels/Motels (SIC 70) continued to show an increase as the tourist season began (up over 700 employees). Special contracts in Stenographic and Typing Services (SIC 7339) and Repair Shops and Related Services (SIC 7699) increased 25% and 16% (respectively) when compared to first quarter.

One hospital (SIC 806) increased employment after converting from state to private ownership. Another unit opened a new psychiatric ward.

EMPLOYMENT COMPARISON 1983-1987

The following ten graphs by major industry group compare employment for the years 1983, 1984, 1985, 1986 and 1987.

Note that seasonal industries in Montana include agriculture, forestry and fisheries; construction; manufacturing (due to logging); real estate, and services (due to the tourist trade). Also, there is a large drop in government employment during the summer months when public schools are closed.

Compared to the four previous years, 1987 has shown lower employment levels in several industries. Mining, manufacturing, and wholesale trade have all shown significant increases during second quarter, 1987. The drop in construction is still lagging behind 1986 due to a continuing sluggishness in housing construction and a delay by the federal government in bidding highway construction contracts.

Several groups also show increases in employment levels over 1986, the most notable being retail trade; finance, insurance and real estate, and services.

For a more detailed analysis of second quarter, 1987, see the quarterly review on page III.

WAGE COMPARISON 1983-1987

The following ten graphs by major industry group compare total wages paid for the years 1983, 1984, 1985, 1986 and 1987.

Note that seasonal industries in Montana include agriculture, forestry and fisheries; construction; manufacturing (due to logging); real estate, and services (due to the tourist trade). Also, there is a large drop in government wages during the summer months when public schools are not in session.

As the employment increases, so do the wages paid in mining and manufacturing. Finance, insurance and real estate and services also show higher wages than in 1986.

For a more detailed analysis of second quarter 1987, see the quarterly review on page III.

86/2 indicates second quarter 1986.
87/1 indicates first quarter 1987.
87/2 indicates second quarter 1987.

Metal mining is currently showing growth in Montana, while the Mining category as a whole is nearly level with the second quarter 1986 figures. A portion of the decline in Construction is due to delays in the awarding of federal highway construction contracts. The Retail Trade, Finance, Insurance and Real Estate, and Services categories all show slight growth in employment over last year.
